

# CASMED and CAREstream

## TWO NAMES TO KEEP IN MIND

For more than 3 years, **CAREstream Medical** has been the proud exclusive distributor for all of **CASMED's** patient monitoring products. Together our two companies have built a reputation of quality, durability, and accuracy in the market with our 740 and 750 vital signs monitors (SPO2, NIBP, ETCO2, ECG, TEMP, RR available), as well as with our affordable NIBP cuff conversion program.

### **CASMED** and **CAREstream Medical**:

- **Top technology:** MAX NIBP (**M**otion **A**rtifact **eX**traction) that allows the caregiver to obtain accurate readings even in difficult situation (tremors, shivering, motion, etc)
- **Monitors and more:** durable and accurate devices built in the USA, with the technology range to allow standardization within your region. We are already present in more than 50 hospitals within Canada.
- **A National Sales and Support Team:** 10 sales representatives from Coast to coast willing to offer standardization solutions, training, and service.
